INTRODUCING
THE ULTIMATE WOOD WINDOW
With the introduction of the Dynamic Accoya® windows & doors there is no need to compromise on historical or classical details. The Dynamic Accoya® wood window will perform equally or better than these other materials, while retaining the nuanced shadow lines and contours of the original classical details. It's the ideal solution for Landmark or historical replications, where the use of any other type of material will not match the original. If the goal is windows or doors that will last for generations then the Dynamic Accoya® is ideal.

Too often the sophisticated classical architectural details of traditional wood windows have been compromised as a trade-off for aluminum or vinyl windows on the premise of lower maintenance and extended durability.

INTRODUCTION
There are five compelling reasons to specify Accoya®:

- **Durability** - Joinery that will stand the test of time and not require replacement for at least another 60 years.
- **Proven finish performance.** When painted or stained advanced weather testing has demonstrated that Accoya®, when combined with state-of-the-art coatings can provide years of maintenance free ownership. Dynamic offers both high performance Kynar Aquatec paint and European 3 part translucent stains, the ideal combination when applied to Accoya®.
- **Environmental credentials** that are second none. Using FSC lumber, a smaller carbon footprint and a non-toxic process, the wood is fully reusable and can be recycled at the end of the product life.
- **Insect resistance to fungus, termites and other insects.**
- **FSC certified wood manufactured by an accredited FSC manufacturer.** Dynamic is one of the few full accredited FSC window manufacturers in North America.
WOOD WITHOUT COMPROMISE

KEY FEATURES

Accoya® wood is produced from sustainably sourced, fast growing wood and manufactured using Accsys’ proprietary patented modification process from surface to core.

DIMENSIONALLY STABLE
OUTSTANDING DURABILITY
PERFECT FOR COATING

UV RESISTANT
NATURALLY INSULATING
EXCELLENT MACHINABILITY

INSECT BARRIER
CONSISTENT QUALITY THROUGHOUT
NATURALLY BEAUTIFUL WOOD

FROM SUSTAINABLE SOURCES
RETAINED STRENGTH & HARDNESS
NON-TOXIC & RECYCLABLE
